Home-Mixed Fertilizers

Superior in Quality! Cheaper in Price!

We have recently received numerous letters from our last season's Fertilizer customers, of which the following is a sample:—

"For the past three years we have used home-mixed Fertilizers entirely, purchasing most of the crude stock from you, and find our Fertilizers much superior in quality and lower in price than the commercial brands we formerly bought. We use about five tons annually, making up our formulas to suit both the crop and the soil. The materials we have purchased of you have always proved of the highest grade."

A. DISEWARD, Highgate, Vt.

REMEMBER WE HAVE THE GOODS IN STOCK and you can get them at any time. Will make prices as low as anyone.

Village Meeting.

The annual meeting of the village of Newport was held at School hall Friday evening and passed off in a very quiet and harmonious manner. C. T. Bean was elected to succeed himself as trustee; G. H. Prouty as water commissioner; T. C. Camp succeeds F. E. Miles on the board of auditors and there is a new park commission, Henry Burgess, Richard Hurst and H. B. Rankin succeeding A. H. Grout, E. C. Blanchard and C. F. Bigelow. The tax raised was 30 cents, the amount recommended in the annual report of the board of village trustees. The sum of \$200 was voted for use of the Park Commissioner in addition to the unexpended balance of last year about \$35. The sum of \$300 was voted for the Newport concert band, which in return shall give not less than twelve open air concerts during the summer season and furnish music for Memorial Day exercises. It was further voted that no licenses should be granted for Merry-go-rounds or tent shows during the ensuing year. A strenuous endeavor to have this order extended so as to include a certain "Hound Dawg" was made by some suffering tax payers but this was overruled and said "dawg" still continues to infest the community. The report of the trustees shows a large amount of street work the past year and goes to show that the application of the road dressing called "Tarvia" is considered a profitable venture; certain it is that our streets, with the exceptions of parts of Main, were in the best shape ever last season. For what the coming season, the trustees recommended the grading and graveling of Coventry street from Main to Second and widening of Coventry road from Second street to the ice houses, the straightening of Pleasant street past the Catholic cemetery and laying out a road from Pleasant street to Coventry road along the southwest line of this cemetery, the land necessary for this road has been offered the village free of charge. The Water Commissioners have decreased the bonded debt of the village by \$3000. The report of the hose company shows it to be in good shape and thoroughly equipped for any emergency.

Choral Union Concert.

The concert by the Choral union of the Civic Improvement association which has been in preparation for some months under the direction of Rev. L. A. Edwards, was given at Lane's on Wednesday evening, March 27. "The Holy City" by A. R. Gaul was rendered by a chorus of more than fifty voices assisted by Albert Blier, tenor, of Waterville, P. Q. Accompanying the chorus was McCaulay's orchestra, assisted by N. R. Young of St. Johnsbury with Mrs. Benj. Hinman at the piano. The entertainment was divided into two parts, the first featuring Miss Mildred Corning, reader, of Stanstead, and Mr. Blier, tenor soloist, assisted by the chorus which rendered several selections. The work of Mr. Blier and Miss Corning was much enjoyed and neither lacked evidence of the appreciation of their audience as they received several encores. The work of the chorus in the second part seemed to meet with general approval. Though weak in the male section the chorus work was so skillfully handled by the conductor, Rev. L. A. Edwards, as to render the rather difficult compositions in a creditable manner affording good support to those of their number who had special parts. The net proceeds of the concert were about \$70, the expenses of the production being rather heavier than ordinary. The various rehearsals during the winter have afforded great enjoyment to all connected with the project.
